"Meats in Storage"

Every working day of the year

75,000,000 pounds of meat are required

to supply home and export needs-and

only 10 per cent of this is exported.

These facts must be kept in mind

when considering the U.S. Bureau of

Markets report that on June 1, 1919,

there were 1,348,000,000 pounds of

meats in cold storage. If the meat in

storage was placed on the market it

This meat is not artificially withheld from trade channels to maintain or

65 per cent (approximate) hams, bacon, etc., in process of curing. It takes 30 to 90 days in pickle or salt to complete the

per cent is frozen pork that is to be cured

per cent is lard. This is only four-fifths of a pound per capita, and much of a will have to go to supply European needs. per cent is frozen beef and lamb, part of which is owned by the Government and was intended chiefly for over-seas ship-

ment. If this were all diverted to domes-

From this it will be seen that "meats

in storage" represent merely un-

finished goods in process of curing and

the working supply necessary to assure

the consumer a steady flow of finished

# STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would split it up. I began to have regular sick headache. I had used pills and tablets, but after a course of these, I would be constipated. It just seemed to tear my stomach all up. I found they were no good at all for my trouble. I heard
